

ACUVUE® EYE HEALTH ADVISOR EVENT

24 Maart 2015 - Beerse (BE)

25 Maart 2015 - Eindhoven (NL)

18:30 19:30 Registratie & Ontvangst

Tijdens de ontvangst hebben wij de catering voor u klaar staan zodat u niet met een lege maag naar de lezingen hoeft te gaan luisteren.

19:30 20:30 Making TEMPO with Daily Disposables - Robin Chalmers OD, FAAO, FBCLA

All contact lens wearers would like to wear their contact lenses in a very comfortable way. In this lecture, Robin Chalmers will address the improvement in safety, symptoms, comfortable wearing time and compliance after a large sample of patients were refit with hydrogel or silicone hydrogel Daily Disposable lenses and surveyed for a year in the TEMPO Registry of Daily Disposable Lenses. Rates of corneal infiltrates and other complications were excellent with both lens types. The Registry also shows that, though Daily Disposable lenses are usually recommended for added convenience for the patient, one strategy to overcome discomfort is moving to Daily Disposable lenses.

20:30 21:30 Astigmatism & Hydrogels - Professor Phil Morgan

Although about 45% of all people in need of a vision correction are astigmatic in at least one eye, in many markets, the number of toric lenses prescribed is much lower than this. In this lecture we will provide insights and tips for fitting lenses for astigmatism. Another question to be addressed is the position of hydrogels in the current contact lens market. Since the introduction of silicone hydrogels, more patients have been refitted with these new materials. Despite this, still many patients drop out of the contact lens category. Do hydrogels still have a place in the current market?

21:30 22:00 Everything you've always wanted to ask...?

Heeft u altijd al een vraag in uw hoofd die u graag eens zou willen stellen aan experts in ons vakgebied, maar er nooit aan toe bent gekomen? Dit is uw kans. Binnenkort ontvangt u van ons een mail waarin u een vraag kunt stellen aan een van onze experts. 30 minuten interactie, daar gaat het hier over!

22:00 23:00 Afsluiting & Drankje
